LOCKS HAVE GOT A LOT SMARTER

At **M.D. Lock & Key**, our smart locking systems bring keyless access to your home, providing peace of mind in knowing your doors are secured with the latest in auto-locking multi-point locks.

We attach importance to scaleable solutions, effective security, reliable components, high performance software and simple operation.

LOCKING TECHNOLOGY DESIGNED
WITH THE USER IN MIND

Smart locks are easy to operate using a unique pin code, fob or mobile app

PIN CODE

4, 6 or 8-digit pin code

FOB

Easy to carry button fob

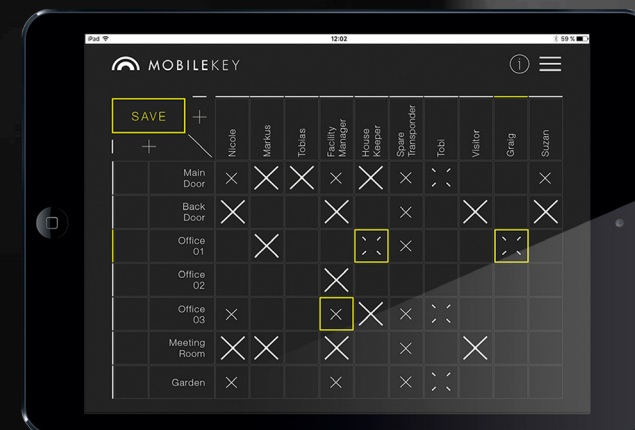

PHONE APP

Smartphone app also manages user access

ONLINE ACCESS MANAGEMENT

Use the mobile app to create personalised locking plans that specify what areas friends and family can access

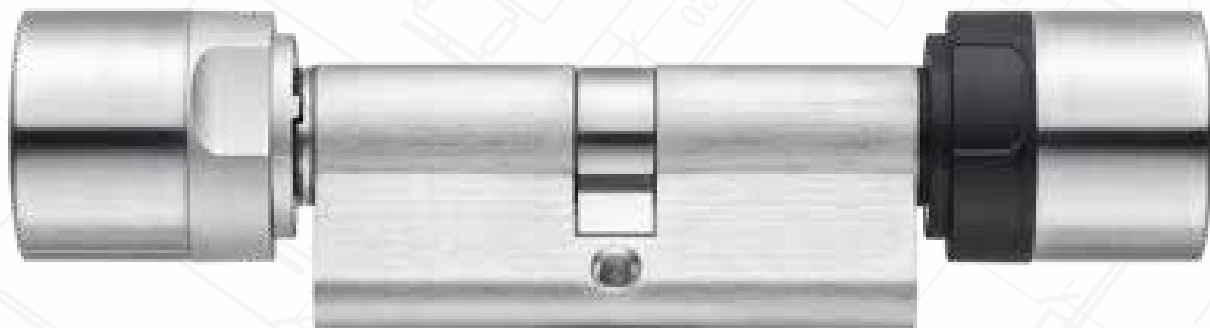

Manage access to relevant areas using the mobile app

| | | PIN 1 | | | PIN 2 | | | PIN 3 | | | | | | | | | | | |

Simons  Voss

UNITING DESIGN, FUNCTION & SECURITY

Smart locking systems combine the physical strength and security of mechanical multi-point locks with the convenience of smart locks.

Premium quality product

Manufactured to a high standard in Simons Voss' purpose built manufacturing facility in Osterfeld, Germany with 2 year onsite warranty from the date of installation

Weatherproof

Stainless steel finish with IP66 ingress protection rating for use in harsh outdoor environments

Fully encrypted

Encrypted radio communication between fobs, keypads and locks with data hosted on Simons Voss' secured network servers

Long life

Industry leading battery life of approximately 250,000 operations and inexpensive battery replacement

ADDED COMFORT AND FUNCTIONS

Time schedules decide who
gains access where and when

View an audit trail of recent
activity and user access

Lost or stolen fobs are easily
removed from operation
